

## FHV - Oblique

Product Code(s): WEFHVO

### General Description

A range of 65mm nominal diameter 'low-pressure' fire hydrant landing valves suitable for both on- and off-shore applications.

### Application

Universal 'DUAL-SEAL' type.

Primary shut-off is by RUBBER-to-METAL seating but a secondary METAL-to METAL seating is also incorporated in the design.

### Installation Details

Inlet: FLANGED or THREADED (male or female) to ANY client requirement, either integral or fabrication.  
Standard Outlet: 2.5" Instantaneous female with single twist release mechanism to BS336.  
Optionally 2.5" BSP thread, male or female, or other standards can be fitted.
